TO OPERATE A SOLID WASTE/LANDFILL FACILITY.

Date: _____

Board of Cassia County Commissioners

Leonard M. Beck, Chair

Bob Kunau, Commissioner

Kent R. Searle, Commissioner

Waiver Of Requirement: If an applicant believes that providing any of the foregoing information to the county will place it at a competitive disadvantage in the operation of the proposed facility it may request a waiver of the obligation to provide said information, and upon a satisfactory showing to the commission that disclosure of the information could reasonably lead to a competitive disadvantage for the applicant such requirement shall be waived by the commission.

Confidentiality: All information provided to the county in the application process that relates to the applicant's financial condition, sources of funding, financing structure, and technical details of construction shall be privileged and confidential and not be disclosed publicly to any person or entity directly or indirectly associated with any potential competitor of the applicant.

Review By Administrator: Upon request of an applicant for a permit to operate a solid waste disposal facility or landfill, the county administrator shall review the application for completeness, and upon finding the application complete refer the same to the board of county commissioners for review, hearing and decision.

Review By Board Of Commissioners: The board shall review the particular facts and circumstances of each proposed permit for solid waste facility or landfill in terms of the following standards:

1. **Compliance With Zoning Ordinance:** Such facility will be harmonious with and in accordance with the general objectives or with any specific objective of the comprehensive plan and/or the zoning ordinance.
2. **Harmonious Appearance:** Such facility will be designed, constructed, operated and maintained to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity, and such use will not change the essential character of the same area.
3. **Existing Uses:** Such facility will not be hazardous or disturbing to existing or future neighboring uses.
4. **Facilities:** Such facility will be served adequately by essential public facilities and services such as highways, streets, police and fire protection, drainage structures, refuse disposal, water and sewer; or the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such services.
5. **Economic Community Welfare:** Such facility will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community.
6. **Detrimental Conditions:** Such facility will not involve uses, activities, processes, materials, equipment, conditions or operation that will be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, dust, noise, litter, smoke, vectors, fumes, glare, pollution or odors.
7. **Vehicular Approaches:** Such facility will have vehicular approaches to the property which shall be so designed as not to create an interference with traffic or surrounding public thoroughfares.
8. **Natural And Historic Features:** Such facility will not result in the destruction, loss or damage of any natural, scenic or historic feature of major importance.
9. **CFR Compliance:** Such facility shall meet or exceed all of the requirements for design, construction and operation of a solid waste disposal facility or landfill set forth in 40 CFR parts 257 and 258.
10. **State Law Compliance:** Such facility shall meet or exceed all of the regulations and requirements for design, construction and operation of a solid waste disposal facility or landfill set forth in the Idaho solid waste facilities act contained in section 39-7401 et seq., of the Idaho Code and applicable regulations promulgated thereunder.
11. **Liner System:** Such landfill facility shall be designed, constructed and operated with a composite liner system or its equivalent approved by the state of Idaho.
12. **Financial Stability:** Such facility shall demonstrate sufficient financial strength and stability to provide reasonable financial assurances that the design, construction and operation of the facility will comply with the foregoing requirements throughout the projected life of the facility,

including the costs of closure of the facility, and the postclosure monitoring period.

13. **Compliance With Other Provisions:** No such facility shall be permitted which is in violation of any other provision of this chapter, the land use ordinances of the county, and/or any other county ordinance.

Supplementary Conditions And Safeguards: In granting any permit, the commission may prescribe appropriate conditions, bonds and safeguards to assure conformity with this chapter. Violations of such conditions, bonds or safeguards, when made a part of the terms under which the permit is granted, shall be deemed a violation of this chapter. (Ord. 94-4-1, 3-28-1994)
