

CHAPTER 3

ELECTRICAL CODE

SECTION:

11-3-1: Connection To Service

11-3-1: **CONNECTION TO SERVICE:**

- A. Permit Required: It shall be unlawful for any individual, person, corporation, or other entity to request or demand from any utility, private or public, the connection to power to any structure, house, building, installation, including mobile homes, for which a building permit is required by the ordinances of Cassia County, without first displaying to said utility or other company a valid building permit issued by Cassia County.
- B. Violation; Misrepresentation: It shall be a misdemeanor for any such individual, person, corporation or entity to violate this section and it shall be a misdemeanor to mislead the utility or other company by showing a permit which is not duly and regularly issued, or which does not cover the structure or installation for which power is sought, or to represent falsely that no such permit is required by the ordinances of Cassia County.
- C. Duty Of Utility: Each utility, private or public, receiving such a request for connection of power without compliance with the terms of this section shall decline such service to the requesting party until the provisions of subsection A of this section shall be complied with by the requesting party.
