Mini-Cassia Criminal Justice Center 2023 Annual PREA Report

OVERVIEW

Rape and sexual activity seriously reduce the mission of the Mini-Cassia Criminal Justice Center (MCCJC) to provide a safe and secure environment for offenders and staff. In accordance with the Prison Rape Elimination Act of 2003, the MCCJC has established a zero-tolerance standard regarding the incidence of rape and sexual activity.

By providing training, education and policy reviews on an annual basis, the MCCJC is confident that it is providing inmates, staff, contractors and volunteers everything they need to be confident and comfortable with their responsibilities concerning PREA. The MCCJC is also confident that the staff, contractors and volunteers have a thorough knowledge and understanding of the PREA requirements and the MCCJC policy and procedures in order to effectively provide sexual abuse and harassment prevention, detection and response to those allegations.

A PREA incident review is conducted on all PREA allegations whether they have been substantiated or unsubstantiated. The results of these reviews are used to access and improve our effectiveness and any corrective actions that may be needed pursuant to PREA mandate 115.88. The review committee considers several factors when determining if any corrective actions should be taken to prevent similar sexual abuse incidents. They consider if the policies and procedures effectively provide prevention, detection and response to the allegation. They consider if the incident was motivated by group dynamics or if the physical plant layout enabled abuse. They consider if there was an appropriate number of staff on duty and they would review the staffing plan to check for any deviations in the number of staff working at the time of the incident. The review committee determines if any corrective actions need to be taken, and those actions are documented and an action plan is put into place.

DEFINITIONS

- **Substantiated**: An allegation was investigated and determined to have occurred
- **Unsubstantiated**: An allegation was investigated and produced insufficient evidence to determine whether or not the event occurred.
- **Unfounded**. The allegation was investigated and determined to not have occurred.

INCIDENTS: January 1, 2023 through December 31, 2023

In 2023, there was one (1) incident of inmate-to-inmate abusive sexual conduct (unwanted touching). In assessing and reviewing the one (1) incident, the review committee determined that no corrective action was needed to facility policy or operations. The PREA incident review team felt that our current policy and procedures effectively provided prevention, detection and response to the allegations. The review committee did not find that the physical plant enabled the abuse. The perpetrator was given disciplinary sanctions and separated from the victims. The incident review team determined that adequate video monitoring was in place and used during the investigation to substantiate the incident. The incident was forwarded to the Burley City Prosecutor's office for prosecution.

CLOSING STATEMENT

In this report the personal identifying information and specific investigatory information has been withheld for privacy and safety of all parties.

The MCCJC realizes that it must continually provide training to our staff members, contractors and volunteers, and the MCCJC must continually provide education to the inmates in order to provide effective detection, prevention, and response to PREA allegations. The MCCJC is dedicated to providing high levels of supervision and monitoring of the inmates to provide them the protection they deserve. The MCCJC is dedicated to providing strong zero-tolerance policies and procedures, and a safe and secure environment for inmates, providing them with a comfort that they can report PREA allegations free from retaliation and in a confidential format.
